S I R :

In response to the outstanding Official Action mailed December 20, 2001,
please amend the above-identified Application as follows.

IN THE CLAIMS:

Please replace claims 1 and 11 with the following amended claims:

1. (Twice Amended) A resistor comprising;
- a substrate having a longitudinal width greater than a length of said substrate;
- a pair of electrodes disposed on said substrate and extending to opposite edges of said substrate along said longitudinal width; and
- a resistor element disposed between said electrode, said resistor element comprising side sections connected to said pair of electrodes, and
- an S-shaped section disposed between said side sections, said S-shaped section being free of trimmed portion.
